

Third Party Authorization Form

Option to Assign Point of Contact and Rebate Payment to Third Party

A Customer may authorize a Third Party (defined as a Contractor or Property Management Company) to perform activities associated with securing rebate incentives on their behalf. Specifically:

- Filing rebate applications
- Transmitting and receiving utility correspondence, authorizations and approvals as required for rebate incentive applications
- Obtaining past utility consumption history, utility energy studies, analysis and reporting
- Obtaining other utility account information applicable to evaluating incentive program participation.
- Receiving rebates
 - **PLEASE NOTE:** The NYSEG/RG&E rebate payment will be made to the Customer unless Customer and Third Party complete the section below to assign the payment to the Third Party. An IRS Form W-9 (Request for Taxpayer Identification Number and Certification) for the Third Party named below must be attached if this option is selected.
 - Post-Inspections will be performed on all projects that receive third party payments.

Customer and Third Party

Please select one or both of the options and sign below:

- Option 1:** Do you want Third Party to act as your project representative and perform the project management functions as listed above?
- Option 2:** Do you want Third Party to take direct payment of the rebate being received?
 If so, both Customer and Third Party must sign below. Both Customer and Third Party understand and agree that if this option is selected the rebate check will be issued to the Third Party named below at the address listed below and NYSEG/RG&E is not responsible for any tax liabilities that may be associated with the rebate payment. In addition, Customer understands that, notwithstanding this assignment, responsibility for complying with the terms and conditions of this Application shall continue to be the obligation of Customer. Accordingly, Third Party understands that it shall have no rights against NYSEG/RG&E or the Implementation Contractor with respect to such assignment or the payment of the rebate. In the event that NYSEG/RG&E does not pay the rebate as a result of Customer's failure to comply with the Application agreement, Third Party's sole recourse shall be against Customer. Customer directs NYSEG/RG&E to pay any rebate to which it is entitled to the Third Party named below and waives all rights to directly receive the NYSEG/RG&E rebates for the identified energy-efficiency project. Per program guidelines, all projects with third party payment will require 100% post-inspection prior to final approval.
